

# Summary of proposed updates to the Lifetime Care and Support Guidelines

This document outlines the proposed updates to each Lifetime Care and Support Guideline and should be read alongside the corresponding draft Part.

The update aims to simplify language, clarify understanding and amend any outdated terms.

These updates do not intend to change a participant's entitlements under the Lifetime Care and Support Scheme.

### Part 23: Workplace and education facility modifications

### General updates

- Changed wording to an active voice where possible (eg Lifetime Care considers)
- Reworded the commencement provision for clarity. The intended meaning remains unchanged.

Heading	Section	Updates
Modifications to a workplace or education facility	1.1 1.2 1.3 1.3b and c	<ul> <li>Removed "treatment and care needs in connection with" to simplify the language.</li> <li>Removed "treatment and care needs" to simplify the language.</li> <li>Removed "generally" to clarify what Lifetime Care considers is not a reasonable expense.</li> <li>Removed "from a workplace or education facility" as not needed.</li> </ul>
2. Method of assessment and criteria used to determine reasonable and necessary treatment and care needs in connection with workplace and education facility modifications	2.1 and 2.1 a-e 2.2 2.2a and b	<ul> <li>Reworded and updated to clarify what Lifetime Care must consider to make an assessment.</li> <li>Reworded and removed "treatment and care needs in connection with" to simplify the language.</li> <li>Reworded for clarity.</li> </ul>
3. Workplace modifications	3.1 3.1d	<ul> <li>Removed "treatment and care needs in connection with" to simplify the language.</li> <li>Updated terminology and added "vocational assessment" and removed "work options plan".</li> </ul>

	3.2	Removed "generally" to clarify what Lifetime Care considers is not a reasonable expense.
	3.2a	Replaced "normal" with "standard".
	3.2b	Reworded to simplify.
	3.3	Removed "generally" to clarify what Lifetime Care considers is not a reasonable expense.
4. Method of	4.1a	Replaced "obliged" with "required".
assessment and criteria used to determine reasonable and necessary treatment and care needs in connections with workplace modifications	4.2	Removed "treatment and care needs in connection with workplace modifications" to simplify the language.
5. Educational facility modifications	5.2d	Updated terminology and added "vocational assessment" and removed "work options plan".
	5.3	<ul> <li>Removed "generally" to clarify what Lifetime Care considers is not a reasonable expense.</li> </ul>
	5.3a	Replaced "normal" with "standard". Removed reference to household items as not relevant.
6. Method of assessment and criteria used to determine reasonable and necessary treatment and care needs in connections with workplace modifications	6.2	Removed "treatment and care needs in connection with education facility modifications" to simplify the language.
	6.2b	Removed example as not needed.
7. Repairs and maintenance to workplace or education facility modifications	7.1	Removed "generally" to clarify what Lifetime Care considers is a reasonable expense.
	7.2	Replaced "For example" with "This is" to clarify.
	7.3	Removed example as not required. Removed "generally" to clarify what Lifetime Care considers is not a reasonable expense.

### Part 23: Workplace and education facility modifications

This Part of the Lifetime Care and Support Guidelines is made under sections 11A, 11AA, 23,28 and 58 of the *Motor Accidents (Lifetime Care and Support) Act 2006* (the Act).

This version of Part 23 of the Lifetime Care and Support Guidelines (the Guidelines) takes effect on the date of gazettal in the NSW Government Gazette and, on and from that date, applies to all participants in the Scheme, whether interim or lifetime, and whether accepted into the Scheme before or after the date of gazettal.

The Lifetime Care and Support Authority (Lifetime Care) may waive observance of any part or parts of this Guideline. Waiving observance of all or part of this Guideline in any particular circumstances is not an indication that Lifetime Care will waive observance of this or any other Guideline in any other circumstances.

### 1 Modifications to a workplace or education facility

- 1.1 Lifetime Care considers workplace and education facility modification to be reasonable and necessary when:
  - a) it has been confirmed that the proposed modifications are not available under another scheme or legislation, including any reasonable adjustments an employer or education provider may be obliged to make;
  - b) a suitably qualified occupational therapist has recommended the modifications to meet a participant's injury-related need in a workplace or education facility modifications report; and
  - c) the employer or education provider and the building owner (if different) both agree in writing to the modifications.
- 1.2 Lifetime Care does not consider the following workplace or education facility modifications to be reasonable and necessary:
  - a) modifications to any workplace or education facility that constitute, are likely to constitute, or will result in, an illegal structure. An illegal structure is one that is contrary to relevant building and construction codes or local council planning guidelines, statutes and/or laws;
  - b) modifications that are undertaken without approval from Lifetime Care;
  - c) modifications where the owner, body corporate or other responsible authority has not given permission for the modifications and such permission is required;
  - d) modifications required as a result of a condition that existed before the motor accident or that is not a result of the motor accident; and
  - e) modifications that provide no clear injury-related benefit to the participant.
- 1.3 The reasonable expenses in relation to the participant's assessed treatment and care needs in relation to workplace or education facility modifications will not include:
  - a) additional costs or other modifications or renovations intended to add value to an existing workplace or education facility and are not related to the participant's motor accident injury;
  - b) the cost of upgrades of any materials that are not required to meet injury related needs;
  - c) costs for the removal of modifications; and
  - d) any loss of value of any property resulting from any modifications to, or removal of, modifications from the property.

## 2 Method of assessment and criteria used to determine reasonable and necessary treatment and care needs in connection with workplace and education facility modifications

- 2.1 Lifetime Care's assessment of a participant's treatment and care needs in connection with workplace or education facility modifications must:
  - a) be made in collaboration with the participant
  - b) consider the physical and social environment of the workplace or education facility;
  - c) take into account the participant's injury related needs;
  - d) consider whether the participant's needs for the modification are stable or are likely to change; and
  - e) consider the effects of aids or appliances, including wheelchairs, on the participant's ability to function within their work or education environment.
- 2.2 Information required by Lifetime Care to make an assessment may include:
  - a) information about the safety of the participant, attendant care workers and other employees or students in the work or education environment;
  - b) information about ownership of the property; and
  - c) consents required for modifications with any other parties such as a landlord, body corporate or local Council.

### 3 Workplace modifications

- 3.1 Lifetime Care considers workplace modification to be reasonable and necessary when:
  - a) the long term impact of the participant's motor accident injury prevents them from performing their duties within the existing workplace environment without modification to the layout or fittings;
  - b) there is an employer who has confirmed in writing they will provide permanent employment for the participant;
  - c) the workplace modification is the most cost-effective means for enabling the participant to return to work and all other alternatives have been considered; and
  - d) a vocational assessment and/or workplace assessment has been conducted and Lifetime Care has agreed to support the vocational/work goal.
- 3.2 The reasonable expenses in relation to the participant's assessed treatment and care needs in relation to workplace modifications will not include:
  - a) items that are standard workplace items such as furniture or whitegoods, smoke alarms, surge protectors, towel rails, fans, lights, hot water services, security doors and windows; and
  - b) items not directly related to the participant's injury related needs.
- 3.3 The reasonable expenses in relation to the participant's assessed treatment and care needs in relation to workplace modifications will not include workplace modifications for a participant where Lifetime Care has already funded substantial modifications in the past 5 years.
- 4 Method of assessment and criteria used to determine reasonable and necessary treatment and care needs in connection with workplace modifications
- 4.1 Lifetime Care considers the following factors are relevant to determine whether a participant's need for workplace modification is reasonable and necessary in the circumstances:
  - a) any reasonable adjustments an employer may be required to make under state and federal legislation; and
  - b) whether the modifications could be funded partly or wholly under another scheme or by another payer.

- 4.2 Information required by Lifetime Care to make an assessment may include:
  - a) the participant's entry to and exit from the workplace;
  - b) the participant's access to all necessary areas of the workplace; and
  - c) the cost and extent of the modifications when considered in relation to the likely benefit to the participant and alternative employment options.

### 5 Educational facility modifications

- 5.1 Costs for modifications to educational facilities are primarily the responsibility of the education facility.
- 5.2 Lifetime Care may consider funding for an education facility modification to be reasonable and necessary when:
  - a) there is no other funding source and the modifications would not be provided under any other legislation or scheme;
  - b) the long-term impact of the participant's motor accident injury prevents them from learning within the existing education facility without modification to the layout or fittings;
  - c) the education facility modification is the most cost-effective means for enabling the participant to participate in the education activity and all other alternatives have been considered; and
  - d) for adult learners, the education program has been identified through a vocational assessment and Lifetime Care has agreed to support the vocational/work goal.
- 5.3 The reasonable expenses in relation to the participant's assessed treatment and care needs in relation to education facility modifications will not include:
  - a) items that are standard educational facility items such as furniture;
  - b) items that are not directly related to the participant's injury- related needs; and
  - c) modifications that may be considered an education provider's obligation as a type of reasonable adjustment under relevant state and federal legislation or law.

## 6 Method of assessment and criteria used to determine reasonable and necessary treatment and care needs in connection with education facility modifications

- 6.1 Lifetime Care considers the following factors are relevant to determine whether a participant's need for education facility modification is reasonable and necessary in the circumstances:
  - a) the participant's ability to participate in educational activities as well as access to other facilities such as bathrooms; and
  - b) whether the modifications could be funded partly or wholly by the education provider.
- 6.2 Information required by Lifetime Care to make an assessment may include:
  - a) the length of time the student is likely to remain in the education facility;
  - b) reasonable adjustments available to timetable and class allocation;
  - c) accessibility for the participant to all necessary areas of the facility; and
  - d) the cost and extent of the modifications when considered in relation to the likely benefit to the participant and alternative options for education.

#### 7 Repairs and maintenance to workplace or education facility modifications

7.1 The cost of repairs and maintenance for modifications funded by Lifetime Care that are essential for the participant's access or safety will be considered a reasonable expense.

- 7.2 Lifetime Care may fund the cost of repairs or maintenance proportional to the original costs paid, where the original modification was not fully funded by Lifetime Care on the basis that this represents a reasonable expense. This is where an employer or property owner also contributed to the original cost of the modification.
- 7.3 The cost of repairs and maintenance as a result of normal wear and tear for the upkeep of a workplace or education facility modification will not be considered a reasonable expense in relation to the participant's reasonable and necessary treatment and care needs.
- 7.4 The cost of repairs and maintenance when the participant is no longer attending the workplace or education facility is not a reasonable expense in relation to the participant's reasonable and necessary treatment and care needs.
